RE: Support "Bring Our Heroes Home Act of 2016"

Dear Senator Ayotte;

For 27 years we have worked hard on the POW/MIA issue. For that same time, we have waited and hoped that finally records would be declassified so that families would be able to compare notes, see case files, and stop seeing 99% of a page blacked out on their loved ones case.

It is with gratitude for your persistence in this issue that we offer our support of the "Bring Our Heroes Home act of 2016."

Many have waited decades for answers - not necessarily remains. It is our hope that a successful declassification of these files will bring the answers and peace they seek.
